## *The Israeli Diamond Industry, All You Could Ask For In One*

Diamonds from Israel fire the imagination of jewelry lovers throughout the world. What makes Israeli diamonds so special? The Israeli Diamond Industry is simply: All you could ask for in one, combining:

- a rich tradition of knowledge
- highest ethical practices
- relations built on stability and loyalty
- the largest and most secured complex in the world.

Asia is a major export destination for Israeli diamonds, representing close to 20% of Israel's total polished diamond sales, which last year topped \$7.1 billion.

The Israel Diamond Institute Group of Companies, a non-profit umbrella organization of The Israeli Diamond Industry, has targeted India as a major consumer market for Israeli diamonds. This is in addition to the attractive markets Israeli diamond exporters already enjoy in Hong Kong, China, Indonesia, Malaysia, Thailand, Taiwan, Singapore, South Korea and Japan.

For the first time ever, the IDI Group of Companies will be exhibiting, with 24 Israeli diamond manufacturers and exporters, at the India International Jewellery Show 2008, growth in diamond trade between India and Israel is guaranteed.

Visit the Israeli Diamond Pavilion to meet a range of Israel's leading diamond companies and visit the IDI booth at 6W092 to learn about our trade promotion services, and see why diamond buyers know that the Israeli Diamond Industry is all you could ask for in one!
